# Welcome to CS698F

❑ **Prerequisite:** ESC101, CS210

❑ **Grading:**

HWs/Assignments:	30%
Midsem:	30%
Final Exam:	40%

# Few comments...

- As this is a networking course, we need to learn a lot of standards
  - Please bear with me if the materials are too easy or too difficult or dry
  
- This is a very large class → some cooperation are needed
  - Please resolve any grading issues with the TAs within 2-3 weeks after they upload grades
  - Please do not come and ask for changing grade of HW1 at the end of the semester

# Content Sources

- ❑ The lecture materials/slides have been adopted/modified from several sources, including:
  - ❑ Data and Computer Communications, Author: William Stallings
  - ❑ Computer Networking, Authors: James F. Kurose and Keith Ross
    - ❑ Interactive problems and knowledge checks → [http://gaia.cs.umass.edu/kurose\\_ross/interactive/](http://gaia.cs.umass.edu/kurose_ross/interactive/)
  - ❑ Computer Networks, Author: Behrouz A. Forouzan
  - ❑ Computer Networks, Authors: Tanenbaum, Feamster, Wetherall
  - ❑ Modern digital and analog communication systems, Author: B. P .Lathi
  - ❑ TCP/IP Sockets in C: A Practical Guide for Programmers, Authors: Michael J. Donahoo, Kenneth L. Calvert
  - ❑ Lecture notes of Steven Gordon @ SIIT, Thammasat University, Bangkok

Apologies for unintended omissions, if any...
