Department of Chemical Engineering,
Associate faculty of the Materials Science Programme,
Indian Institute of Technology, Kanpur.

Patterns & book keeping

- "Gibbs phase rule": F= C-P+2

- F=Degrees of Freedom;

- C=Component, P=#phases;

- F=#independent intensive variables (P, T not v!);

- Single phase region: F=1-1+2=2

- Two-phase region: F=1-2+2=1

- Three-phase region: F=1-3+2=0
